

Morgantown Area Community Garden Initiative Proposal

Background

The West Virginia Department of Transportation-Division of Highways (WVDOH) is preparing to improve Greenbag Road by widening the road, adding sidewalk, and installing roundabouts at two poorly performing intersections. This project will eliminate an existing community garden that serves the residents of the surrounding area.

The WVDOH reached out to the MMMPO to assist with the mitigation or the impact of this project. The MMMPO worked with the WVU Center for Resilient Communities; the MMMPO contacted several other interested parties to develop a strategy to mitigate the impact of the Greenbag Road project. This proposal was prepared as a cooperative effort with the WVU Center for Resilient Communities, the WVU Campus Garden, the City of Morgantown, the Monongalia County Commission and the MMMPO.

Proposal

Community Gardens aid in combating food insecurity and food deserts. Monongalia County suffers from food insecurity and the area around downtown Morgantown is a food desert. To address these needs, the partnering agencies are proposing to create a community garden pilot program named: "Morgantown Area Community Garden Initiative." This program will establish garden spaces within the City of Morgantown and the surrounding urbanized area of Monongalia County. The Morgantown Area Community Garden Initiative will provide funding to individual organizations through a competitive application process to be run by the City of Morgantown in cooperation with Monongalia County through the Morgantown Monongalia MPO. The application is attached to this proposal. The lead contact, Jackie Peate, is available to aid applicants throughout the process. Applications should be emailed to the lead contact by submittal date.

The WVDOH has provided \$4,600 in remaining funds to be awarded to one or more community organizations, Public Consortium (HOA or Similar), or groups to support the creation of a community garden. Applicants may request the full \$4,600 or a smaller amount, allowing for the potential funding of multiple projects.

A sample budget for a \$4,600 grant is provided below:

Garden construction (Raised garden bed supplies, garden shed materials): \$1,800

Soil and amendments: \$900

Fencing, signs, labels, water source, miscellaneous garden supplies: \$1,400

Supplies for produce harvesting/packaging: \$250

Plants and seeds: \$250

Total: \$4,600

Structure

Applications will be open to groups beginning in late March. A link to the application and information will be available on the MMMPO & City of Morgantown website and social media platforms. A Steering Committee will be selected with two (2) members appointed by the MMMPO and two (2) members appointed by the City of Morgantown. This Committee will review applications and award funding based on a Selection Criteria, which will be made available to applicants. See Key Dates below for information on the timeline.

Successful applicants will be required to meet reporting requirements and to present a progress report on their activities and the status of the garden to the community garden selection board, MMMPO representatives and representatives of the City of Morgantown, the Steering Committee, or the appropriate municipality depending on the location of the garden. Awardees will be required to report back for two years once they have received funding.

The grantee will be responsible for documenting the use of the funds per the COOPERATIVE AGREEMENT between the MMMPO and the grantee. After two years, this project will be considered completed. If the City of Morgantown or another entity wishes to continue this project, they may do so, but the project will be considered complete after that time. The announcement of selected projects on the MMMPO and City of Morgantown websites will trigger this two-year timeline. Payments will be dealt with based on independent organization.

Key Dates

- Announcement release: *March 21st 2025*
- MMMPO Accepts Applications: *1 week after Announcement release*
- Applications Close: *April 4th 2025*
- Steering Committee Review: *1 week after Applications close*
- Announcement of Selected Projects Online: *1 day after Steering Committee Review*

** Application consulting will be available during the time in which the applications are open. See Contact Information at the end of the application.*

MMMPO Application for Morgantown Area Community Garden Initiative
