- Comparison Table of Traffic Volume (2013-2016) | 87-88
- 2016 Traffic Count Table | 89-90

Introduction

The 2016 Morgantown Monongalia MPO Traffic Count Report is a comprehensive listing of vehicular traffic counts collected for the MPO on an ongoing basis. The most recent count were collected on April 6 and 7, 2016 in the Morgantown Monongalia metropolitan area.

The count data is collected specifically for the MPO and housed on the WV DOT-Division of Highways Traffic Server operated in cooperation with the Transmetric. In an effort to provide this book with the most comprehensive data available, MPO staff has illustrated each traffic count location with an aerial photograph from Google Map® and calculated the peak hour traffic percentage of daily volume for each traffic count location.

This book is intended to inform the public on traffic volumes, traffic patterns, and other traffic related issues in the greater Morgantown metropolitan area. It could also be used for analyzing traffic movement, monitoring regional development, justifying highway legislation, and other purposes.

The Morgantown Monongalia MPO does not make any representation of the accuracy of this data. Users agree to hold harmless the Morgantown Monongalia MPO, including its officers and employees, from any and all liabilities, claims, debts, damages, or actions of any kind arising from the use of this count data.

The following locations are recommended for recount in the fall of 2016.

Station ID	Location Description
3114023	Stewartstown Rd / Northeast of School St
3114033	Charles Ave / Southeast of US 119
3114036	Pleasant St / Pleasant Street Bridge
3114044	University Ave / North of Greenbag Rd
3114050	Earl Core Rd / North of Greenbag Rd
3114057	Fairmont Rd / Southwest of Fairmont Rd
3114061	Stewart St / Btw Hoffman Ave and Protzman St
3114065	Pineview Dr / North of WV 705
