

## Summary of the 3/31/2026 Pre-Proposal Meeting for General Transportation Planning Services

- Official Applications should be mailed in. An electronic copy is also requested. Please make it a ZIP file so it can be easily emailed.
- What projects did the previously selected consultant work on? Downtown Morgantown Microsimulation Study, Greenbelt Complete Streets Project, Don Knotts Boulevard Pedestrian Feasibility Study. You can find information on these on our website. Feel free to contact the MPO for further information.
- What are future projects the selected consultant may work on? The UPWP for the upcoming year includes a route efficiency study for Mountain Line Transit Authority, Implementing the Downtown Morgantown Microsimulation Study, implementing minor updates of the MTP (MTP 2055), working on the next major update for the MTP including the creation of a new regional travel demand model. There is also the potential to develop studies for the implementation of selected projects.
- Bill Austin will be retiring June 30th. There will be a new Executive Director. Staff is unsure of exact timing and if they will be a part of the selection. Once the new Executive Director is chosen, it will be publicly announced. It is possible that the new Executive Director will be in place in time to participate in the consultant selection process.
- The last two on call consultants, Kimley Horn and AECOM, occasionally coordinated on projects and reviewed each other's models. Consultant coordination will be on a project-by-project basis, determined by the project's scope and needs.
